# Ideation Report

(ToDo Cake) *To Do app*

1. Introduction

App that allows users to sign up for an account and store To Do items to their account, mark to do items as complete and show or hide completed items.

2. Expected List of Features

- **Users can create register and login**
  user can create a new account and login to start using ToDo cake App.

- **Users can write to do items**
  any registered user can write To-Do items in his own list. The To-Do list appears only to account owner who can read, edit or delete these items.

- **Every user can edit, delete or mark items as complete item**
  Every user can edit, delete or mark items as complete item. This means that the To-Do items is protected and only account owner can control his own list.

- **To-Do items can be searched and ordered**
  To-Do items can be search and ordered. So users can find a particular item in his own list.
